

DX 111 - Desoldering Nozzle

BestellNr.:0051314100

DX 111 Desoldering Nozzle with Threadless Fixture System for DSX 80 and DXV 80

The DSX series tools feature a novel threadless desoldering nozzle fixture system whereby the nozzle is inserted into the head and locked into place by applying a 1/4 turn. This patented feature allows the desoldering nozzles to be quickly and easily exchanged and also improves the rate of thermal transfer from the desoldering head to the desoldering nozzle providing the tools with a faster heat up time and recovery rate. Additionally, because there are no threads in the head to foul, maintenance and costs are reduced.

Top Attributes

Plating	Longlife Iron, leadfree optimized
• Outside ∅; 2,5 mm	
• Inside ∅; 0,7 mm	
• Nozzle Length a: 23 mm	

Technical Data

Hardening type	None
Corresponding Soldering tool family	DX
Plating	Longlife Iron, leadfree optimized
Tip form	Ø
Tip type	DX 111
Application	Electronic

Packaging information

Shelf pack size (Units per shelf pack)	Counted
